Fire Doors:

Karona manufacturers fire doors with 20-minute positive or negative pressure ratings.

Doors are also available with 45, 60 and 90-minute positive pressure ratings. All fire doors, except those with a 90-minute PPR, are available with glass panels.

Visit www.karonadoor.com for complete specifications.

Hardware Machining:

Doors can be pre-machined for hardware in our plant. Visit our web site for a full list of options.

we stand behind our products

Karona builds precision-engineered hardwood doors from a variety of species featuring plain-sawn face veneers and hardwood edge strips bonded to a stable core material. All Karona door panels feature this same durable core.

Dimensionally stable and consistent core materials offer maximum protection against warpage and shrinking. This attention to detail and the finest quality materials allows Karona to offer a limited lifetime warranty on residential products and a five-year limited warranty on commercial doors.

For a copy of our full warranty, contact your local distributor, Karona or visit www.karonadoor.com.

finishing touches

Karona's multi-step factory finishing process improves quality and consistency by eliminating the problems associated with finishing on the job site. The UV finishing materials employed in the Karona system are water-based, environmentally friendly, and meet the strictest requirements of all local, state and national environmental protection standards.

Karona's Advanced Factory Finishing System offers you a range of standard colors. We can also custom match any existing stain using our state-of-the-art color analysis process. Just provide us with a sample and we'll do the rest.

Custom finishes allow unlimited architectural design options and meet WDMA and AWI custom grade specifications.

Veneer Choices

Karona offers the industry's widest range of hardwood veneers; including these 21 options.*

*Plain sliced white oak also a standard selection, not pictured.
