why choose Karonas?

Craftsmanship | Quality

Whether you are a homeowner or architect, Karonas doors express an exceptional level of taste and style. Cost-effectively.

If you are building a new home, or want to update, our doors offer you the natural warmth of wood for every room, interior or exterior. From traditional, to modern, to complete custom designs, Karonas offers options to fit any decor, and the quality and beauty to please even the most discerning eye.

If you are an architect or other building professional we offer you an exceptional range of styles and veneer selections. In addition to our standard catalog we have complete custom design capabilities.

For commercial installations we build a full range of sound and fire-rated doors that meet WDMA and AWI custom-grade specifications.

In addition to our complete product selection our service and support will help you keep your clients satisfied.

For private homes or commercial installations we offer you the confidence and peace of mind of the finest products in the industry today. From design, to material selection, to engineering, production, and shipping, Karonas takes the utmost pride in providing you with state-of-the-art solutions at every level.

We offer nearly 6,000 standard door designs across all our catalogs. We look forward to helping you express any style you desire. Inside and out.

Residential interior products are covered by a limited lifetime warranty. Commercial interior products are covered by a five-year limited warranty. Contact your distributor or visit our website at www.karonadoor.com for complete details.

Quality | Confidence

Karona doors are designed with world-class engineering, and built with the highest quality materials, the finest workmanship, and state-of-the-art technology.

Highest quality materials

- Stable, solid core material resists expansion/contraction and cracking.
- The best of A-Grade veneers, which meet or exceed the standards set by the WDMA.
- Extensive use of engineered components enables us to bring you the highest quality at competitive prices.

World-class engineering

- Fully computerized design and engineering allow us to support an immense variety of choices while maintaining consistently high quality levels for standard and custom doors.
- A skillful blend of the latest advances and traditional engineering methods give you the best craftsmanship using current technology.

State-of-the-art production technology

- Automated production lines complete your order in the shortest possible time.
- The precision of computer-controlled production machinery means your doors are built with the tightest tolerances in the industry. This results in greater strength and durability.

Finest workmanship

- Our skilled production personnel combine the accuracy of computer-controlled machinery with craftsmanship.
- Extensively-trained employees give us the flexibility to adjust to changing demands - with no compromise in quality. As a result you meet project deadlines, stay within budget, and receive the finest finished products.

make a statement

It's Your Style

Karona's MDF door line offers unlimited designs that can be painted to match any decor.

MDF doors offer excellent durability, stability against warpage, and are built from environmentally-friendly materials.

With years of experience producing hardwood doors, we apply our skills to an engineered wood product that offers you a lifetime warranty.

Karona manufactures traditional stile and rail MDF products with the same technology and quality standards used for our wood doors. All doors are glued and doweled and available with wood inner and outer edge bands if desired.

Choose from a complete selection of door styles: raised panels, flat panels, arch and radius top doors, french doors, fire doors and much more.

All Karona products are proudly manufactured in the U.S.A.

Fire-Rated Doors to Meet Local Building Codes

We make fire doors with 20-minute positive- or negative-pressure ratings, and with 45-, 60-, and 90-minute positive-pressure ratings. All except the 90-minute are available with glass panels.

Fire doors can be ordered in sizes up to 42" wide and 8' high for single-swing; up to 7' wide by 8' high for pairs.

Karona can also provide Fire Jamb for your fire doors. Available for up to 90 minute positive pressure.

A variety of factory machining options is available to simplify specification.

High-End Architectural Doors

Whether you need a special-size door, special mounting options, a non-standard panel configuration, or an unusual veneer, Karona will work with you to achieve precisely the appearance and/or performance you need.

For additional information and technical details about any of the above offerings, call us toll-free, 800-829-9233, during business hours, or visit our website any time - www.karonadoor.com.

Commercial-Grade Architectural Doors

These high-quality doors for business or institutional use, are available in all our standard panel configurations or in custom designs. All conform to WDMA and AWI custom-grade product specifications.

Commercial doors are usually factory-machined and prefinished to ensure highest quality, maximum uniformity, and proper color blending. Contact Karona at 800-829-9233 for specific details.

Sound Transmission Compliance

Karona panel doors meet a STC-32 rating for door sizes up to and including 3' wide and 7' high, in strict conformity with ASTM Designation E90 and E413-87.

Hardwood Veneer Selection

Karona maintains the industry's most extensive inventory of A-Grade hardwood veneers so you can choose the perfect look for all your needs.

Other species are also available. Visit our website for details.

finishing samples

Finishing Touches

Karona is pleased to offer you the finest high-end finishing system in the industry.

The fully-computerized, state-of-the-art, process assures you of furniture-finish quality and consistency throughout your job, no matter how many doors we build.

The UV finishing materials are water-based, and entirely environmentally-friendly. The curing process provides you with a harder, more durable surface.

Your doors will give you a lifetime of warmth and beauty.

Karona's finishing systems allow you to explore unlimited architectural design options. They meet or exceed AWI and WDMA specifications.

custom style

It's Your Choice

Karona has a talented staff of designers and engineers that can build virtually any design that you can dream.

Bring us your ideas for your unique, custom, completely personal statement for entry or interior doors, and we'll bring them to life.

We take your concepts, refine the design, develop the construction details and present you with drawings and 3D renderings for your approval. You'll know exactly how your doors will look before we begin crafting them.

Your satisfaction is guaranteed.
